Dear Vince:

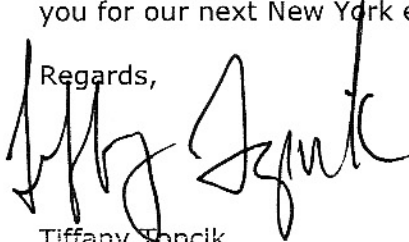

On behalf of all of us here at ABC Corporate Services, I'd like to personally thank you for your generous help and contribution to the success of our event, UpClose with ABC Corporate Services, held at the Plaza Hotel on April 24, 2003.

From beginning to end, Just Jazz was a pleasure to work with. Your website is exceptional in its style and moreover in it's content. You were more than just entertainment for our event, but also a tremendous resource. I appreciate your willingness to work with us to have the right style of music and your flexibility during the event to allow for our announcements and speeches.

An event of this magnitude had a long list of details, and it was such a relief not to worry about "the band." Your performance at the event was top notch and professional as was our entire experience with Just Jazz. The trio provided that "extra touch" which only enhanced the quality of our evening.

I would not hesitate to recommend your organization, and we will certainly contact you for our next New York event.

Regards,
